

CURRICULUM VITAE

A junior full-stack developer, recently graduated from the IT Career Switch Full Stack Developer course. I have always been interested in software development and I am now looking to establish a career in the industry. This interest has led me to recently graduate from a coding Traineeship as a full stack developer including completing 2 real-world projects successfully to specification using a wide range of programming languages. I am a hardworking and loyal employee with excellent problem-solving skills and a drive to succeed. I am confident that I will make a valuable addition to your development team.

PERSONAL DETAILS

NAME: Anna-Lucy Maddocks

RESIDES: Liverpool

TRANSPORT: Full UK driving licence and vehicle

CODING TRAINEESHIP

IT Career Switch Ltd
Coding Traineeship – Full stack developer
1-year program

During the traineeship I had to demonstrate a very competent level of the following programming languages and technical skills

- HTML5, CSS3, JavaScript
- PHP, SQL, React, jQuery
- Java, Python, C#, Node.js
- Command Line Git, GitHub
- Remote API access

ADDITIONAL TECHNOLOGIES:

- AJAX, JSON, Express, Bootstrap

DEVELOPMENT EXPERIENCE:

Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio: <https://www.annalucymaddocks.co.uk/>

Portfolio Project #1: “Gazetteer”

The specification was to reply to a website specification for a map-based app to provide information on countries – with a focus on a “mobile-first” development. Preferably using a framework, to then develop HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third-party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: “Company Directory”

A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a “mobile first” application to maintain a company personnel database (MySQL). Sign-off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system’s ability to perform error-free.

CAREER HISTORY:

May 2023 – present

POSITION HELD:

Edge Hill University

Web Developer (Work experience)

- Gaining experience with the Web Development Team and assisting them with projects

Mar 2020 – Jan 2022
